IIOA

The Indiana Industrial Operators Association, Inc. is a not for profit association established to help people further their careers in the profession of industrial waste treatment. A technical conference is held annually to offer continuing education contact hours to our members and persons interested in wastewater treatment.

Additional seminars are held during the course of the year at announced locations.

Communications are maintained with members through the official website www.iioa.net and the IIOA JOURNAL. Networking, including notices of career opportunities are maintained by the IIOA staff to help members identify positions in waste treatment which become available.

Municipal Pretreatment Coordinators

Municipal Pretreatment Coordinators are the link between industry and the stream and a member group of the Indiana Water Environment Association. Municipal Pretreatment Coordinators manage the Industrial Pretreatment Program in major cities. Annually a Municipal Pretreatment Coordinators conference is held to offer continuing education contact hours to members and interested persons.

WITtec™ 2009

The IIOA and the IWEA Pretreatment Committee have joined together at **WITtec™ 2009** to exchange technical information and provide a forum for better understanding of industrial and municipal wastewater treatment processes. Those interested in wastewater may attend any or all sessions offered during the conference.
